DIARY NOTE

DD/S

21 March 1972

25X1A Meeting with Executive Director-Comptroller: On 17 March
25X1A Mr. Blake [REDACTED] joined me in meeting with
Mr. Colby [REDACTED] on the suggested changes on the DCI Conference
Room. The principal point of discussion was the suggested rear view
25X1A projection facility. [REDACTED] described the several options and we gave
25X1A to Mr. Colby the original of the attached paperwork which contains cost
figures, etc. [REDACTED] also noted the locations of other such facilities
in the building. After some discussion Mr. Colby indicated that he felt the
cost was not warranted considering the availability of other facilities as
nearby as the Operations Center. Nonetheless, he would discuss the
matter with the Director recommending against the change. (21 March -
Mr. Blake advised that the original paperwork had been returned directly
to him by Mr. Colby with a notation to the effect that the matter had been
discussed with the DCI and there had been no further action.)

25X1A We also discussed the new map holder which is being built by
O/L to OBGI specifications and its positioning in the DCI Conference Room.
It was agreed that this would be decided after the box itself is in hand and
available for experimentation. [REDACTED] will be included in the placement
consideration. [REDACTED] also made the strong recommendation that when
the present maps are removed the walls be left without decoration - the
condition ~~placed~~ ^{planned} by the original architect. The final point of discussion was
the matter of changing the rear wall of the DCI Conference Room.
Consideration will be given to curtains either full length or shorter.
